Launton C of E School Newsletter

A weekly update for children

Message from Mrs. Paterson to the pupils

Hello Team,

People in the news keep talking about schools all the time and wondering how quickly things will be ordinary again with all children able to go to school. The government has sent lots of information and new rules to all schools about how they should be organised as part of the plan to stop lots of people from catching and spreading coronavirus.

All the adults in school are working very hard to find ways of making everything work with the new rules. The children who are coming to school are working very hard to stick to the new plans and we are all making more plans for when more children can come back to school.

We miss you all and school will be better for everyone when everyone can be here learning. In the meantime, below is a picture of someone whom you all know well and watch every year when she makes her nest in the oddest place. And look how the willow arch and dome have grown; I am sure you have too!
